babyTEL announces Interoperability with Digium's Switchvox

babyTEL Inc., a leading provider of Voice over Internet Protocol (VoIP) solutions, and Digium, the Asterisk company, are pleased to announce that babyTEL is now a certified VoIP Carrier for the Switchvox line of business phone systems.

The two companies recently completed interoperability testing and babyTEL is now listed on the AsteriskExchange, the official website listing all the certified applications that interface with the open source Asterisk platform.

"This announcement represents babyTEL's continued commitment to Enterprise VoIP," said Stephen Dorsey, President and CEO of babyTEL. "We are very pleased to have the opportunity to work with a leading edge phone system like the Digium Switchvox. Our combined solution offers valuable features and benefits, providing a total telephone solution for the business community."

About babyTEL Inc.

babyTEL is a leading provider of quality VoIP telephony services, which leverage subscribers' Internet connections. babyTEL, headquartered in Montreal, is a leading-edge developer of VoIP and Unified Communications solutions with many years of experience providing carrier-class products and managed services globally to large enterprises and service providers. More information can be found at www.babytel.net

About Digium

Digium®, Inc., the Asterisk® Company, created, owns and is the innovative force behind Asterisk, the most widely used open source telephony software. Since its founding in 1999, Digium has become the open source alternative to proprietary communication providers, with offerings that cost as much as 80 percent less. Digium offers Asterisk software free to the open source community and offers Switchvox IP PBX software to power a broad family of products for small, medium and large businesses. The company's product line includes a wide range of hardware and software to enable resellers and customers to implement turnkey VoIP systems or to design their own custom telephony solutions. More information is available at www.digium.com.
